nitrile foam glove,"Air",

Nitrile Foam Glove "AIR" 15635: A Superior Alternative to Leather Gloves The "AIR" nitrile foam glove serves as a high-performance alternative to traditional leather drivers' gloves. Thanks to its fully coated NFT® nitrile foam construction, it reliably repels liquids while maintaining high breathability. The blue nitrile dot pattern on the palm ensures a confident, secure grip in dry, oily, greasy, and slightly damp working environments. Combining a flexible polyamide/spandex liner with excellent abrasion resistance, this glove successfully balances long-lasting durability with exceptional wearer comfort.
