Arm protector 'Armguard' cut protection,

The PRO FIT® arm protector "Arm Gard" combines cut protection of the highest level F with pleasant wearing comfort. The high-performance yarn "SteelFiber", a combination of HPPE fibre with a wafer-thin steel thread, gives the arm guard an extremely high tear strength and cut resistance and is flexible, light and soft at once and therefore comfortable to wear. The grey/white arm protector is 45 cm long and is attached to the upper arm with an extra strong velcro. This ensures optimum hold without slipping and offers reliable protection against cuts on the forearm. The "Arm Gard" from PRO FIT® can be combined with protective gloves and additional protective clothing.

SteelFiber
CUT RESISTANT FIBER

Article no.:	7745
Coating description:	Arm protector 'Armguard' cut protection, 45 cm, without thumb hole
Packaging units:	1 pair / 50 pair
Protection class Category PPE:	PPE Cat. II - Protective equipment for defence against hazards. All products that are not classified as Category I or III belong to Category II.
Standards:	EN ISO 21420:2020 EN 388:2016 + A1:2018 EN 407:2020
EN 388:2016 + A1:2018	• Abrasion resistance: 3 • Cut resistance: X • Tear resistance: 4 • Puncture resistance: X • Cut resistance ISO: F
EN 407:2020	• Burning behaviour: X • Contact: 1 • Convection: X • Radiant: X • Small splashes of molten metal: X • : X
Type of protection:	cut protection
Support material:	High Performance Poly Ethylene Steel fibre
Gauge:	13
Manufacturing process for liner:	knitted
Color:	grey
Industry:	Craft / manufacturing industry Heavy industry Light industry
Features:	Particularly breathable SteelFiber
