Warning protection softshell jacket,

The High-Visibility Softshell Jacket stands out with its abrasion-resistant, wind- and water-repellent softshell material (water column 8,000 mm) and high breathability thanks to its 3-layer laminate. Thermo-fixed, segmented reflective strips ensure optimal visibility without bothersome seams. The fleece lining offers high wearing comfort, while the ergonomic fit, numerous pockets (including a tablet and pen pocket), detachable hood, and extended back guarantee all-around protection and functionality.
